The challenge consists of 31 days, each represented by a grid of 10 water glass icons. The icons are arranged in two rows of five. The first glass in the first row of the first day is highlighted in blue. Each subsequent day shows the next glass in the sequence highlighted in blue, following a row-by-row, left-to-right order. By the end of day 31, all 31 glasses in the grid are highlighted in blue, indicating that the challenge has been completed.
